

How Many Women Are Like This?

Can anything be more wearing for women than the ceaseless round of household duties? Oh! the monotony of it all—work and drudge; no time to be sick, tired, ailing, yet cannot stop. There comes a time when something "snaps" and they find themselves "simply worn out" and to make matters worse, have contracted serious feminine disorder which almost always follows the constant overtaxing of a woman's strength.

Then they should remember that there is no remedy like Lydia E. Pinkham's Vegetable Compound—the experience of these two women establishes that fact:

Cedar Rapids, Ia.—"After the birth of my last child I had such painful spells that would not let me entirely for my household. I suffered for months and the doctor said that my trouble was organic and I would have to have an operation. That was an awful thing to me, with a young baby and four other children, so one day I thought of Lydia E. Pinkham's Vegetable Compound and how it had helped me years before and I decided to try it again. I took five bottles of Vegetable Compound and used Lydia E. Pinkham's Sanative Wash and lo! I was cured. I have been a well woman able to take care of my household and family without any trouble or a day's pain. I am ready and thankful to say your medicine any time. I am forty-four years old and have not had a day's illness of any kind for three years."—Mrs. H. Koenig, 611 Ellis Blvd., Cedar Rapids, Iowa.

Showing How a Chief Who Really Knows His Business Can Dissect a Turkey.

Ever ask Charlie Baer, Claypool hotel chef, how to carve a turkey when turkey is 90 cents a pound and you want to save everything but the cobble? Ever ask Charlie? Go at it this way:

"Charlie, I've invested my life's savings in a turkey. I want to make that bird pay."

"Oh, yes, yes," Charlie answers. "Yes, yes."

Then he grabs a turkey and a butcher knife—turkey in the left hand, knife in the right! Zippy! Off comes a leg! Zippy! Off comes the other leg! Zippy! Off comes one wing! Zippy! Off comes the other wing!

Then all you have to do is to draw the knife gently through the white meat.

"And you can make soup out of the neck and sauce out of the giblets," said Charlie.

"See? That's how!"

Bluff Called. Mayne—I have so many callers pestering the life out of me, I hardly know what to do with them all.

Conditions Being in Europe What They Are, Press Agent Had Decidedly Good Idea.

I assisted the other day at what may prove to be the springs and origin of the next great international marriage. The press agent for an organization which deals in philanthropy for Europe was talking:

"I want to bring Prince Donatelli over here next year," said he. "I think I can hurry him to some nice American girl."

"That'll be nice," I said. "Especially for the prince."

"That's right," said the press agent, seriously. "There isn't a royal family in Europe that is open to him just now. He could not get into some of them—he isn't such a much of a prince you know—and it would not pay him to marry into some of the others. They have no money or thrones or palaces or anything left."

"So you think it would be a good idea for him to marry into some well-to-do factory family over here?"

"Sure," said the press agent.—New York correspondence of the Kansas City Star.

Help! Help! Another horrible pun has been perpetrated—this time in the South. An exchange, whose name we withhold to save it from the fury of the mob, remarks: "The cry of high prices will continue as long as the people are willing to pay the organists."—Boston Transcript.

ONLY WAY ASPIRIN SHOULD BE TAKEN

Look for name "Bayer" on tablets and follow directions in package.

The Bayer Company, who introduced Aspirin, tell in their careful directions in each package of genuine "Bayer Tablets of Aspirin" that to get the best results one or two glasses of water should be drunk after taking tablets.

"Bayer Tablets of Aspirin" to be genuine must be marked with the safety "Bayer Cross." Then you are getting the world-famous Aspirin, prescribed by physicians for over eighteen years.

Each unbroken "Bayer" package contains proper directions for Colds, Headache, Toothache, Earache, Neuralgia, Lumbago, Rheumatism, Neuritis, and for Pain generally.

Handy tin boxes of twelve tablets cost but a few cents. Druggists also sell larger "Bayer" packages. Aspirin is the trade mark of Bayer Manufacturing of Monocettedester of Salicylic acid.—Adv.

The Secret of Power

By REV. B. B. SUTCLIFFE Extension Department, Moody Bible Institute, Chicago

TEXT—Power belongeth unto God.—Ps. 62:11.

Many people, and some Christian people, make the mistake of looking for spiritual power in something that man has.

Instead of realizing that "power belongeth unto God." To obtain this power we must first get rid of any idea that man has it or can acquire it unaided, and then we must rely wholly upon God to exercise it in and through us.

The Bible is full of illustrations of the truth of this statement.

For instance, spiritual power does not depend on a man's acquired ability, as witness Moses. He was learned in all the wisdom of the Egyptians, but this could not enable him to set the children of Israel free. He must spend forty years in the backside of the desert unlearning much that he had acquired in the schools of Egypt, before he was ready to be an instrument of God's power. All of his acquired ability was useless in bringing about the plagues which cursed the Egyptians and bringing water from the rock. But, linked with God, he had only to speak and the manna fell for the sustenance of the people. He had but to smite the solid rock with the rod and the pure, fresh water came forth.

Learning Alone of No Avail. Again, this power is not found in the learning of the schools. Witness the work of Peter, who was an "unlearned and ignorant man," as far as the schools were concerned. He preached, with three thousand souls saved as the result of one sermon. He preaches to the confusion of the scholarly leaders in Jerusalem, making them feel their crime of murdering Jesus Christ. Such power belongs not to mere learning which men may get, but unto God, who stands behind a man yielded to him.

Again, this power is not found in any special natural aptitude or fitness of men. Most people think Samson was a giant in his physical development. They imagine him as a broad-chested, heavily-muscled man, to whom feats of physical prowess were as nothing. But if such were the case, the woman Delilah would never have inquired wherein his strength lay. Rather, Samson was a frail-looking, effeminate sort of man, with his long hair and soft, smooth skin, and the surprise to his enemies and the women was his supernatural strength when there was no sign of it in his make-up. It was God's power, not Samson's.

Once more, this power is not in outward equipment, but inward reliance upon God. When Goliath came forth to meet David, he had all the outward equipment and physical power to conquer an army. David had none of this, but was a mere slip of a boy, with a sling and stone to match Goliath's sword and shield. But the Lord proved that an arm and hand yielded to and directed by God were mightier than the power of the man who by his very presence, so terrible was it, could make an army quake.

Again, there are those who think that great numbers will accomplish the Lord's work, but the story of Gideon and his small band refutes this idea. As in Gideon's case, large numbers sometimes tend only to stifle the power and make human effort impotent. Power, real power, belongeth unto God. It works all unseen and waits for the one who will obey. The measure of the Christian's obedience will be the measure of that Christian's power. The question is not how much natural or acquired ability is possessed, nor how much outward equipment is at hand, nor how great the number present, but how far will they obey?

The Power of the Spirit. Zechariah, the prophet, says the Lord's work is done "not by might nor by power, but by my Spirit, saith the Lord." Jesus says the things "impossible with man are possible with God." He does not say they are possible to God, that is a self-evident fact, but he says they are possible with God. Things impossible with man, linked though he may be with all the natural or acquired ability in the world, with all the learning and wisdom of the world, become not only possible but easy of accomplishment to the man who is linked with God. And the holding, blinding and unchanging link over which God's power runs is simple obedience unto him.

GREAT BELIEVER IN BLACK-DRAUGHT

Oklahoma Lady Tells How Her Husband Believes in Black-Draught and Uses It For Many Ailments.

Nowata, Okla.—Mrs. W. B. Dawson, a resident of this place, says: "My husband is a great believer in Black-Draught and thinks it cures about everything."

It is splendid for headache, constipation (which usually causes headache), indigestion or any kind of stomach trouble, and we just keep it for these troubles. I don't know when we haven't used it, and we always find it satisfactory."

I know it has done us both a lot of good and saved us many dollars. I use it in teaspoon doses at first and follow with small doses, and it sure does make a person feel like new."

It cleanses the liver better than any other liver tonic I have ever used, and after taking a thorough course nature asserts itself and you are not left in a constipated condition that follows a lot of other active medicines. This is one thing I like especially about it."

For over 70 years Theford's Black-Draught has been in use for many simple ailments, and today is a recognized standard remedy in thousands of family medicine chests. It will pay you to keep Black-Draught in the house for use when needed.

GOOD ROADS

ROAD WORK IS FACILITATED

Effect of Amendments Passed Last February Is Shown in Report of Secretary Houston.

Amendments to the federal aid road act passed last February have greatly facilitated the work of putting the country on a good roads basis. In the opinion of David F. Houston, secretary of agriculture. These amendments, in brief, increase from \$10,000 to \$20,000 per mile the amount of federal funds that may be expended by one road and considerably broaden the definition of what constitutes a rural post road. The act as it now stands, says Secretary Houston in his annual report, places only three limitations on the type of road which may be built, as follows:

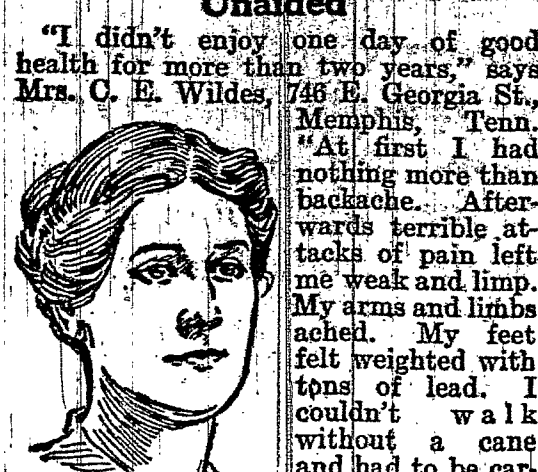

"That the roads shall be 'substantial in character.' This means that the road must be so constructed that it will carry the prospective traffic with such maintenance expenses that the total annual charges will represent a reasonable expenditure for the public service rendered by the highway. It is to the interest of the states that the roads on which federal funds are used be substantially constructed, because the law requires them, or their civil subdivisions, as a prerequisite to receiving further funds, to maintain properly all roads built with federal aid. There is nothing in the law which restricts types of construction between narrower limits than those established by sound finance and good engineering practice.

"That the amount contributed from the federal treasury is connected with any road shall not exceed 50 per cent of its cost or \$20,000 a mile. The main thing is to build a road that will stand the traffic in the particular section of the country where it is constructed. The conditions in certain regions may require a heavy, comparatively high-cost type of road, while in others a lower cost type may meet all the requirements. Sentiment is growing throughout the country, even in the newer sections, in favor of more substantial roads.

"That the road must be a 'rural post road' as defined in the act as amended; but is, 'any public road a major portion of which is now used, or can be

"At first I had nothing more than backache. After a while it became a terrible attack of pain, and I was weak and limp. My arms and limbs ached. My feet felt weighed down with tons of lead. I couldn't walk without a cane and had to be carried to bed every night. I couldn't do a bit of work and kept my people busy rubbing my aching limbs. Sometimes my whole body became rigid. My feet were swollen twice their normal size."

"It almost killed me to pass the kidney secretions. I lost 42 pounds and each day felt I had aged a year. I was so nervous the rustle of a paper made me scream."

"Finally I was advised to use Doan's Kidney Pills and my back made me a well woman. I have enjoyed the best of health for seven years, and have done all my housework without any trouble since."

Keep Your Liver Active, Your System Purified and Free From Colds by Taking Calotabs, the Nauseless Calomel Tablets, that are Delightful, Safe and Sure.

Physicians and Druggists are advising their friends to keep their systems purified and their organs in perfect working order as a protection against the return of influenza. They know that a clogged up system and a lazy liver favor colds, influenza and serious complications.

To cut short a cold overnight and to prevent serious complications take one Calotab at bedtime with a swallow of water—that's all. No salts, no nausea, no griping, no sickening after effects. Next morning your cold has vanished, your liver is active, your system is purified and refreshed and you are feeling fine with a hearty appetite for breakfast. Eat what you please—no danger. Calotabs are sold only in original sealed packages, price thirty-five cents. Every druggist is authorized to refund your money if you are not perfectly delighted with Calotabs. (Adv.)

Volubility Not Wanted.

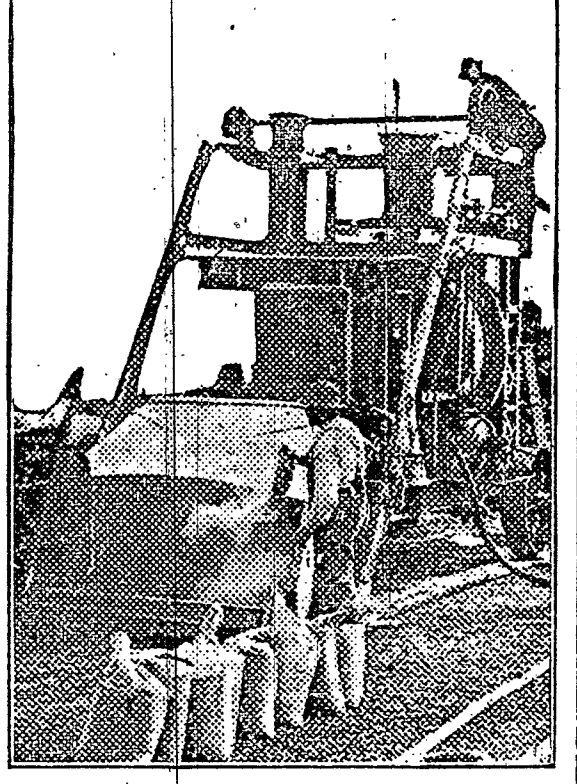

When you find people who can say volumes about nothing you can usually put it down they are short somewhere. A man with ideas that count seldom wears out his vocabulary trying to advertise the idea. He lets the ideas stand on their own feet. The fact is he doesn't need to do so much for a thing that can stand alone. And that's more, ideas have a way of being able to deliver pretty strong argument. When they are founded on truth there is no way of getting back of them. The fact that others refuse to accept them does not discount them. They stand on their own merits to be recognized and used when people learn to appreciate their value. History reveals the fact that his biggest men were men of small speech.

Proved His Deep Love.

A remarkable will has just been admitted to probate in England. It is that of a British soldier, Lieut. Frank E. Kirkley, wounded in action, and who died at the Twenty-fourth casualty station, Italy. The will is written upon the back of a small photograph, autographed "Muriel," and contains only the words: "I leave all to her. Frank E. Kirkley, 13th July, 1917." The identity of "Muriel" was easily established as Miss Annie Muriel Kyrie Smith of Larkhill, Salisbury Plain. The value of the property was about \$1,500, but it causes a heart throb to realize that the last thought of the dying lieutenant was for the woman of his heart.

Honor Paid Belgium's Queen.

The queen of Belgium is the first woman in nineteen years to pass inside the garden walls of the historic Spanish mission of Santa Barbara, the last before her being Mrs. William McKinley, wife of the president.

used, or forms a connecting link not to exceed ten miles in length of any road or roads now or hereafter used for the transportation of the United States mails. Under the original wording of the law federal funds could be expended only on roads upon which the United States mails 'now are or may hereafter be transported.'

"Following the amendments to the act the regulations governing its administration and the standards for plans, specifications and estimates were modified, and one of the most successful former state highway engineers in the country was placed in charge of the federal aid road work. He has at his disposal a large staff of local and district engineer aids, and no pains will be spared to provide any further federal assistance that may be needed. An advisory committee, composed of representatives of the state highway department, selected at the request of the department, by the American Association of State Highway Officials, with due regard to geographic considerations, also has been appointed to work in intimate touch with the federal bureau, meeting with its officers at stated periods and at such other times as may seem desirable."

CONSTRUCTION COST VARIES

Mostly Due to Availability of Proper Materials Where Concrete Roads Are Built.

The cost of concrete roads vary considerably, due mostly to the availability of proper materials. If good clean sand and hard durable pebbles or crushed stone can be readily obtained close to the road to be improved, the first cost is materially decreased. On the whole, however, the cost is slightly below the costs of other modern types.

GAY AND POPULAR RESORT

Biarritz, in Southern France, Noted as the Scene of European Frivolity and Fashion.

One of the gayest and most popular watering resorts of Europe is Biarritz in France, about forty miles from the Spanish border. Its nearness to Spain has colored its language and architecture somewhat, giving it the picturesque quality of both countries. It is a beautiful place, with its cream-colored, red-roofed villas, dark pine trees, winding walks and crescent of white sandy beach guarded at either end by high, rocky bluffs, rising abruptly from the sea. Before the war it was the scene of frivolity and fashion, rivaling Monte Carlo in its gambling, dancing and display. It was a favorite resort with one of England's more playful kings in his lighter moments. Indeed, its main street is called Rue Edouard VII in honor of him.

The war brought a sudden change of mood to Biarritz. Its gambling casinos and hotels were turned into hospitals for wounded French, and later American soldiers. Grim convoys of warships passed close to its shores on their way through the Bay of Biscay. Numerous ships were torpedoed in sight of the shore by the German submarines lurking along the Spanish coast. The coast was heavily mined, and from time to time the detonation of a mine would shake the town.

CITY ECHOES.

—Miss Rosetta McGinn, who has been in Washington, D. C., the past two years holding a responsible position in the revenue department of the government, reached home Sunday morning, having resigned her position at the Capital to accept another with the government at New Orleans. Her many local friends welcome her return.

—Emile J. Gex was re-appointed attorney for the Board of Supervisors during that body's session this week, the appointment for a year and the salary \$75.00 a month. Mr. Gex served the old board well in this important capacity as legal adviser to that body and was appointed by the new board as a compliment to his wisdom.

—Surveyor E. S. Drake and assistants, commencing the Bay St. Louis seawall extension, are busily engaged in defining lines of the balance of the wall to be constructed in front of the city, and are making considerable headway. The commission, A. L. Stokes, president; Thomas P. Hale, George C. Fitching, Chas. Sanger, Richard Sietz, associate members, are most active in the premises and propose to build the wall during the present year. Further progress in their work hinges on the survey.

—Mr. W. G. Thigpen, one of the best known residents of the upper western portion of the county, was among the many visitors from the interior of the county during the week, who came here on business before the Circuit court. While here Mr. Thigpen was a welcome caller on The Echo. One of his sons, a fine, manly fellow, called, who answered his country's call, lies asleep in France's soil, where he fell in active battle, a picture of the grave sent to the sorrow-stricken parents by the American Red Cross.

—Many visitors to the county seat this week on the occasion of the circuit court, took occasion to compliment County Clerk A. A. Kerposien on the success of his efforts to convert the court house grounds into a park. The presiding judge took occasion to comment on the beauty and success of the undertaking. With the city hall and court house grounds beautified to this extent it is hoped these improvements will prove a spur to further civic pride and that this will serve as an incentive to property owners to do likewise.

—A painful accident occurred to George, little son of Mr. and Mrs. Tom, Wednesday while playing on school grounds. A little fellow fell with another boy and fractured his left arm. The injury is not very serious but painful.

—Mrs. D. C. McMillan and baby, D. C., are visiting at the home of their relatives, Mr. and Mrs. C. McMillan, in late street, while on their way home to San Francisco, Cal., from a stay with relatives at Chattanooga, Tenn.

—Patrons of "Joe's Cafe," Horace Whitefield, proprietor, enjoy the strains of music of a new automatic piano which the enterprising proprietor put in this week. The purchase was made through the local music house of G. E. Temple.

—Mr. Leo Fahy, who is studying for the priesthood at the seminary near Covington, La., is spending a few days at home with his mother and her family. While indulging in a game of basketball at the seminary recently he was hurt and came to Bay St. Louis to recuperate.

—Mr. John B. Murphy, one of the well-known and successful farmer residents of the Nicholson neighborhood, has been spending the past week at the county seat, attending the circuit in the capacity of serving on the grand jury. Mr. Murphy was a welcome caller on The Echo during the week.

—Contract for the building of another handsome home on the beach front was awarded by G. M. Milam to P. E. Bondin, to begin at once. Mr. Bondin some time since purchased the two-story dwelling of R. Sealstrang, on Front and Julia street. This building is to give place for the new one, which will be a one-and-a-half story structure and will cost \$30,000. The plans call for a most attractive and beautiful dwelling and when completed will represent an expenditure of \$10,000.00.

—The wedding of Miss Doris Viterbo and Mr. Jefferson Wells will take place at Beaumont, Texas, on March 6th instead of the 20th. The nuptials were hastened owing to the departure of Mr. and Mrs. J. Viterbo, the bride's parents, for Baltimore on the seventh. New Orleans States. Miss Viterbo is popularly known in Bay St. Louis, spending several summers here with her parents at the Klock Hotel, and visiting Miss Adele Rexach and other friends.

The news of her marriage, to take place today, will be greeted with local interest. —The marriage of Mrs. Cecil Blakemore Rea, of Bay St. Louis, to Mr. Blakemore Rea, of Mobile, Ala., took place at Gulfport, Miss., Monday afternoon, and the pleasant news was received here with much interest. Mr. and Mrs. Rea are registered at the Grand Southern Hotel, where they will spend a while before returning to Bay St. Louis to the bride's grandmother, Mrs. C. M. Blakemore, in Union avenue. While the plans for the future of the young couple is not given out, it is expected they will reside in Mobile, where the groom resides with his family, one of the best known and most influential in the social and business world.

ST. JOSEPH'S AUXILIARY ISSUES APPEAL FOR GREATER MEMBERSHIP TO HELP WORK.

DRIVE ON IN ORDER TO EXPAND ACTIVITIES OF AN ORGANIZATION THAT IS A MOST PRAISEWORTHY ONE—ITS MEMBERSHIP FEE IS SMALL, BUT THE WORK IT COMPLEISHES IS BIG—SOME OF THE RESULTS ALREADY ACCOMPLISHED TO THE PRESENT.

The St. Joseph Auxiliary, in seeking new members appeals to the public to join and help the good cause at 50 cents membership fee per year. For the information of those who are not familiar with the charitable purpose and objects of the auxiliary, we think it necessary and proper to explain. It was organized in May, 1918, by the ladies of the community for the purpose of assisting the St. Joseph Academy in its work of charity and education. The auxiliary does considerable charity of which the public is not aware, and those who are active members and attend meetings are sometimes surprised when informed of the sacrifices made by the good sisters. A great many children are educated without charge, many are furnished books and stationery free and in some instances clothes are furnished and food is given, and some are boarded the

entire season, all without cost, at the expense of the St. Joseph Academy. The Auxiliary has built sanitary drinking stands and other things for benefit of the health of the children. Many more things are badly needed. In assisting the good and noble work carried on for years by St. Joseph Academy for the benefit of the poor children you help a good cause. The Auxiliary has meetings on the first Tuesday of every month at 3 P. M., at which time free entertainment is given by the children, and the public is invited to attend. All persons who are interested in education and feel that they can do charity and assist the good cause for the benefit of the coming generation can send the yearly membership fee of 50 cents to the monthly meeting, to Mrs. A. O. Bordelon, the treasurer, or Miss Letitia Nollis, the collector. ST. JOSEPH AUXILIARY.

DEATH OF OLIVER WESTON.

Was Son of Mr. and Mrs. Dave R. Weston, of Logtown—Passed Away at Atlanta, Ga., Where He was Attending School.

Oliver Weston, youngest of two sons of Mr. and Mrs. Dave R. Weston, of Logtown, this county, died at Atlanta, Ga., of pneumonia after an illness of about ten days. He was a native of Logtown and was about 17 years of age.

Young Weston was attending the Georgia Military College, at Atlanta, when he was taken ill. His parents were sent for, his father reaching there immediately after when his condition grew serious and his mother followed the father a few days later. Dr. J. Q. Fountain, town and family physician was summoned to the bedside in hope that the young life might be saved, but the illness had made such progress that all additional efforts failed to prove availing. Death occurred Tuesday and the remains reached Logtown Tuesday morning, the funeral taking place the same day. Rev. W. G. Forsythe, pastor of the Main Street Methodist church, of Bay St. Louis, who had officiated at the marriage of Mr. and Mrs. Weston, conducted the ceremony, assisted by Rev. Norton and Rev. Gray, both of Logtown.

In addition to his heartbroken parents, Oliver Weston is survived by a sister, Miss Mary Weston, and a brother, Clem L. Weston, who have the deepest sympathy of the people of the entire county. The deceased was a splendid young man, well-known and universally esteemed by all who knew him. He was a fine looking, young fellow, the very personification of health, and all of his attending happiness, and the news of his demise was not only received with much sorrow, but proved a shock to all who knew him.

FOUR GOVERNORS OUT FOR THE SENATE.

The Meridian Star authority for the report that "A gentleman high in Mississippi politics is authority for the statement that four former governors of Mississippi will be candidates for the United States Senate to succeed the seat of Senator John Sharp Williams. According to this gentleman, whose insight into the politics of this state is perhaps more to be relied on than any other man in Mississippi, says the quartet of ex-chief executives who will cast their hats in the ring are former Governors B. F. Noel, Theo. C. Bilbo, Earl Brewer and James K. Vardaman—Brothers Leader.

And The Echo adds to the above that your Uncle Jim Vardaman is going to defeat them all.

NEW EDUCATION BILL.

To remove the county superintendent of education from the realm of politics by making the office appointive, instead of elective, is the purpose of a bill favorably reported by Chairman Pate of the education committee in the house this Thursday morning. A minority report opposing the measure was also submitted. The bill provides for the creation of county boards of education composed of five members from each supervisor's district, who shall be patrons. The board would be empowered to select the county superintendent from material available for the office. It would even be necessary for applicants of the residents of the counties in which they applied, the idea being to make it possible for the board to obtain a list of good executive ability. The plan is akin to that now used in Louisiana.

The Ford Sedan, with electric self-starting and lighting system and demountable rims with 3 1/2-inch tires front and rear, for every day in the year has no equal as a family car. Just as popular on the farm as it is in the city. In fact, it fits the family demands in every vocation of life. Large, roomy seats, finely upholstered, plate glass windows make it an open car in pleasant weather, while in rainy and inclement weather it becomes a closed car, dust-proof and rain-proof. It is not only comfortable, but really cozy, and above all, economical in operation and maintenance, and has all the Ford merits of strength and durability.
